

# THE FUTURE OF LEARNING

Update 1-24-19

## Instruction First

*Educators discuss how instruction drives master planning.*

## FAQ

**Q: How is this process different from prior planning activities?**

**A:** This plan focuses on how students today best learn, and how the environment and teaching methods can best support that. Only then, can we evaluate school buildings and their ability to support the preferred approaches.

## Quote

"Never forget that a school's culture and learning environments should spark a true joy for learning."

– Victoria Bergsagel –  
Educational Design Strategist  
Architects of Achievement

## Share Your Ideas

We would love to hear your ideas about what education should like in the next 10 years in Park City School District. Email Project Manager Clio Rayner, [crayner@gsbsarchitects.com](mailto:crayner@gsbsarchitects.com).
