

THE FUTURE OF LEARNING

Update 2-7-19

Four-Step Process

The education master plan is being created using this 4-step process.

Join the Discussion

What is the purpose of the upcoming Community Open Houses?

The public is invited to weigh in on important issues like grade alignment, class size and school location and how those issues best support learning and academic excellence. Community members will get to review recommendations from our educators and working groups – and add their own voices to the conversation.

Quote

"February is a busy month. In addition to the community open houses, we will hold meetings at each school to present a progress report and capture all opinions and ideas regarding individual school issues, needs, and desires."

– Christine Richman, GSBS Consultant –
