

THE FUTURE OF LEARNING

Update 2-28-19

Open House

This week the public is attending Open Houses to offer input on grade alignment, Treasure Mountain Junior High, school/class sizes, school location, and the Kearns campus. Tonight's Open House is from 6-8 at Ecker Hill Middle.

Community Feedback

During the next two weeks, the Consulting Team will be hosting meetings at each school. These are the questions the team will ask:

- What are the aspects of education at your school that contribute most to the quality of education?
- What are the most successful elements of the facility?
- What could be done to improve the facility?
- Are there things that should be fixed or addressed right away?

Quote

“All learners need and deserve 21st-Century learning opportunities to thrive as tomorrow’s leaders, workers, and citizens...learners need a broad range of experiences that develop their skills, dispositions and abilities to succeed.”

– David Ross –
Global Education Consultant
Former CEO of the Partnership for 21st Century Learning
