

THE FUTURE OF LEARNING

Update 3-7-19

Community Engagement

Task Force groups have been meeting to determine criteria for key issues critical to the planning process.

Progress to Date

During two open houses last week, the consultants provided the community with an update of its efforts since this fall, including the work of the steering committee, learning leaders forums, and task force groups. The master planning team's next step is to ensure facilities are the appropriate tool to meet the academic standards of the district.

You can view the full presentation [here](#).

Quote

"The Future of Learning is in the homestretch. Make your voice heard at a school listening meeting. This is the last chance for the community to share their thoughts about the issues and needs specific to their schools."

— Christine Richman, GSBS Consultant
