

THE FUTURE OF LEARNING

Update 10-31-19

Possible Phases

The Planning Committee is recommending that master planning be implemented in three phases, with the high school listed as the top priority and moving the 9th grade to PCHS as soon as possible.

2019-20 Priorities

- Fund school projects that enhance the future of learning (library updates for collaborative learning, furniture that allows for dynamic group and project learning, and flexible and adaptable space modifications)
- Determine finance options
- Issue RFP for architect to design high school/middle school options
- Conduct finance community survey

Beijing School Visit

PCHS Principal Roger Arbabi, chair of the Secondary School Design task force, is visiting Beijing #4 High School, one of the most prestigious high schools in China.
